CURIOSITY...

Malvarrosa and Patacona are two very famous beaches of Valencia. The quantity and quality of services offered are very good , and you can find numerous restaurants and cafes nearby.

ACTIVITIES

The basic activities are:

VALENCIAN URBAN ART:

Valencia, despite its size, is one of the cities where the Street Art is blooming. In fact, our artists (some friends) are doing work around the world and often have great prestige. This route attempts to show the city centre from the artistic point of view, away from traditional paths. We admire the murals and graffiti of prominent artists like Blu, Deih, Julieta XLF, Escif (Valencia Banksy) ... etc

JAZZ NIGHT:

Very few know that for a few years now, Valencia has been entering the international jazz circuit, with a large number of concerts and future growth in this genre. We will go to one of the jam sessions spread throughout the city to enjoy some good music together.

BIKE TOUR:

We like to do our best to be environmentally friendly, so we love to promote the use of bicycles as transportation. Valencia is a city that is becoming a little more sustainable every day. It's very easy to get around on a bike or by walking. In our school, we propose a route through the river Turia, the largest urban garden in Spain, where we can enjoy an excellent landscape and architecture.

LANGUAGE EXCHANGE:

One of the fastest and most useful ways to increase your level of Spanish is being in direct contact with native Spanish speakers, so our school looks to provide complete immersion during your stay with us. Together we will go to a language exchange meeting where we can talk with local people and thus learn even more about Spanish culture and customs.

PHOTO MEMORIES:

As photography lovers, we believe it is mandatory to take with you a nice souvenir of your experience, so during your stay we will suggest some photographic spots where we can go together to make the most of your camera. Remember that there is a specific course for this purpose, which will be an introduction to the techniques of SLR photography and photographic excursions to various points of interest.

OTHER ACTIVITIES

VISIT THE ALBUFERA NATURE RESERVE:

Albufera Park has a large range of flora and fauna worth admiring. We offer you the chance to get inside the park and explore the viewpoints and birds found there. In addition as an extra activity it is possible to take a boat ride on Lake Albufera.

RIDING TO "El Saler":

For the more sporty students, we suggest a bike tour to the Saler, one of the most beautiful beaches in the city of Valencia. The route crosses some fishing villages on the coast. The road is surrounded by dunes and Mediterranean vegetation (pines, scrub...) so you will enjoy direct contact with the nature of this region.

SAGUNTUM:

The city of Sagunto is considered to be the origin of the Roman settlement in Valencia, and during that era it was more important than the current provincial capital. Sagunto offers a fusion of rich cultures. At that time, Arabs, Jews and Christians all lived in the city. Together we will take an excursion to the castle, the Roman theater and travel along the labyrinthine streets of the Jewish quarter.

SAILING VALENCIA:

If you are visiting Valencia, it is mandatory to spend a day at the sea and we offer you that possibility. We can organize routes of different lengths depending on your needs and your budget. Do you want to see a sunset from the sea with a glass of champagne? It is possible. If you just want a ride on a yacht? It's possible. Do you want to have a boat party? Ask us. Fancy an excursion on the open sea? Why not? What would you say about making a paella at sea with good music and a cocktail in hand? You can do this too!

WINE LOVERS:

It is widely known that Valencia has a large number of excellent wines so we want to give you the opportunity to taste some of the most delicious wines of Valencia along accompanied by our delicious local produce.

DAY TRIPS:

If you are looking for taking a day trip to Madrid or Barcelona, alone or accompanied, you can contact us and we will offer the finding the cheapest way to reach your destination. If you come as a group, the options will definitely be cheaper. We will help you organize them.

***There is possible to extend and customize de activities.**

***The basic activities are included in the course price experience, although there exists the possibility of payig for them once at the school.**

(Hours vary
 based on the group)

WHY VALENCIA?

Because its size is ideal (1 million inhabitants): It has the same amount of tourist attractions, transportation availability, (metro, bus, tram, bike hire, etc...) as that of larger cities, but all in the confinement of a smaller one. Easy and comfortable to live in!

Between the XIV and XV centuries was one of the most important centers of Europe. You can find a large number of impressive buildings, cultural events and nightlife full of pubs and restaurants ..

This futuristic "city within a city " is certainly considered one of the most surprising and imaginative architectural projects. It contains the Oceanographic , The City of Science , the Hemispheric and Palace of Arts .

WHY VALENCIA?

Because it is one of the most beautiful cities in Spain, it is clean, rich and VERY SAFE. In addition, it is not an expensive city compared to other cities.

Valencia has a Mediterranean climate very pleasant. The average annual temperature is 22°C with warm summers and mild winters, rarely below 12 ° C. Slightly rainy autumns are, as the early spring. You can enjoy warm temperatures seven months a year. Valencia is strategically located in the middle of major cities to visit, such as Madrid, Barcelona and Ibiza, which makes it easy to visit them.

The city of Valencia has, during the year, several important events that you can not miss. One of the most important are the Fallas in Valencia, an international party and of great artistic beauty known. For five days the whole city turns into a party of gunpowder, fireworks and music, which will end with great monuments of cardboard burning in the streets.

We can not forget the Tomatina, held in a town near Valencia, Bunol, where after a long night of partying people go to the square to celebrate a great tomato battle.
